Your clients are already here.

FiscalMap attracts exactly the professionals and investors who are actively planning a fiscal relocation – pre-qualified, high-intent leads at the exact moment they need expert guidance.

ENTREPRENEURS

Structuring their company in the optimal jurisdiction before incorporation. Comparing corporate tax rates, territorial regimes, and ease of setup across 82 countries.

DIGITAL NOMADS

Choosing their next base based on visa access and tax treatment of foreign income. Active decision-makers with disposable income and immediate service needs.

EXPAT INVESTORS

Comparing capital gains and wealth tax regimes before relocating assets or changing tax residency. High net worth, high urgency, highest lifetime value.

GLOBAL CITIZENS

Already decided to leave their home country, researching where to settle next. The highest-intent segment in the expatriation market. Ready to act.

"Very impressive and detailed application. The design is slick and the information layout is really cool."

– Reddit community, r/digitalnomad · 1,200+ upvotes within 48h of launch

"Great tool — I'd like to list my firm on FiscalMap."

– Paul Rausch, CISSP · JS Bongiovanni Company · Organic inbound inquiry

Seven tools. One platform.

Every feature is designed to keep high-intent users engaged. Average session depth spans 3–5 country profiles and the personal tax simulator – all at maximum purchase intent.

 Interactive World Map <p>Color-coded by income tax, capital gains, VAT, safety, purchasing power or territorial status. Switch modes instantly. 82 jurisdictions.</p>	 Smart Country Rankings <p>Sort 100+ countries by any metric. PPP-adjusted ranking reveals which countries offer the best real after-tax purchasing power.</p>
 Territorial Tax Filter <p>Every country where foreign income is taxed at 0%, sorted by residency access. Paraguay, Georgia, UAE, Panama and more.</p>	 Digital Nomad Visas <p>25+ countries with active DN visa programs – income requirements, tax regime, accessibility score, EU/Schengen status.</p>
 Personal Tax Simulator <p>Users enter their income profile and instantly see every country ranked by real tax burden. Full methodology disclosed. All 50 US states included.</p>	 Verified Advisor Listings <p>Tax professionals and relocation firms appear on country pages at the highest-intent moment in the user journey.</p>

DEVELOPER API

Power your product with live fiscal intelligence.

The FiscalMap API gives your application structured, always-fresh access to the world's most comprehensive tax comparison dataset – 100+ countries, 50 US states,

5,000+ bilateral tax treaties, 26 digital nomad visa programs. REST JSON, Cloudflare-powered, sub-100ms globally.

COUNTRY & STATE DATA

Income tax, capital gains, wealth tax, inheritance, VAT, social security, cost of living, PPP index, residency cost and process – for 100+ countries and all 50 US states.

5,025 TAX TREATIES

Full bilateral treaty database from OECD Corporate Tax Statistics 2025. Withholding rates on dividends, interest, royalties and technical fees for every active treaty pair.

PERSONAL TAX SIMULATOR

POST an income profile (employment, dividends, capital gains, foreign rental) and receive a ranked list of optimal jurisdictions – sorted by total effective tax burden.

ADVANCED FILTERING

Filter by tax type, max rate, region, residency cost, digital nomad visa availability, safety score, healthcare quality and cost of living. Combine any criteria.

RANKINGS & COMPARISONS

Ranked lists by any metric. Side-by-side comparison matrix for up to 5 jurisdictions. Territorial-only filter. Full-text search across all 100+ country profiles.

DIGITAL NOMAD VISAS

26 DN visa programs with eligibility rules, minimum income requirements, processing time, cost, and country-specific notes. Updated as programs change.
